DAVID TON
PRIMARY EXAMINER

1. Claims 1-18 are allowed.

2. The following is an Examiner's Statement of Reasons for Allowance:

a). The prior art of record teaches the claimed invention substantially, but it fails to teach or suggest singly or in combination a method for using a redundant word in a register file in place of a faulty word in the register file comprising the steps of mapping a logical address having a logical addressing space in the original instruction to a physical address having a physical addressing space, the physical addressing space being larger than the logical addressing space; if the logical address points to the faulty word in the register file, making the physical address the address of the redundant word, the redundant word being in the physical addressing space, but the redundant word not being in the logical addressing space; and if the logical address does not point to the faulty word in the register file, using the logical address as the physical address as set forth in independent claim 1.

b). The prior art of record teaches the claimed invention substantially, but it fails to teach or suggest singly or in combination a computer system comprising: a register file having a number of words within an addressing space of a logical address, and a redundant word not addressable by the logical address; a predecode unit that maps the logical address to a physical address, the physical address having a larger address space than the logical address; a register addressing portion capable of accessing any word within the addressing space of the physical address, without use of

an address compare; and a diagnostic unit capable of identifying a faulty word in the register file and controlling the predecode unit to map the logical address to a physical address responsive to the identity of the faulty word as set forth in independent claim 8.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

4. The prior art of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Ton whose telephone number is (571) 272-3828. The examiner can normally be reached on M-Th from 5:30 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on (571) 272-3819. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
